- Gross margin analysis
For example by: product or service, customer, channel, territory, salesperson, etc.
- Optimizing cash flows
- Financial modeling and forecasting
- ROI based decision making

- Sets clear objectives
- Tracks key indicators
- Holds everyone accountable
- Key components include:
 - Management dashboards
 - Incentive compensation plans
 - Capture of key information to drive optimal business decisions

Our Integrated Approach pulls in our extensive sales and marketing experience to accelerate revenue.

Our approach to due diligence is different
from other consulting firms
– and we believe better.

Stanton Associates goes beyond analyzing the major line items of the financial statements. We focus on customers and products/services, markets and competition.

- Is there clarity and accuracy on profitability by product, customer, channel, territory, etc?
- Is there predictability and visibility to future revenue?
- What are the opportunities for future growth with desired gross margins?
- What is the customer experience?
- How loyal are they to the Company's brand?
- What is the competitive positioning?
- Is Marketing a value add, with a known ROI?
- Does it support the sales process at each stage of the sales cycle?

We send in professionals equipped with the knowledge and experience to get to the truth quickly and effectively: People who have run companies, been worldwide head of sales, Chief Marketing Officer, etc.

So send in the accountants to check for GAAP compliance and unrecorded liabilities. But use Stanton Associates to report on potential for future growth.

Corporate Diagnostic Review
